

Graduate School Entrance Exam Information

Standardized tests are a requirement for admissions to most Graduate Schools.

Different programs require different exams. Information on which exam to take can be found on a school's Admission Application. Typically, the exam requirements are as follows:

- DAT – Dental School
- GRE – MS/MA programs
- GMAT – MBA programs
- LSAT –Law Schools
- MCAT – Medical Schools
- Additional subject matter exams are required for Ph.D. programs

Registration for these exams can be completed online through the following sites:

- **American Dental Association**
<http://www.ada.org>
- **Association of Medical Colleges**
<http://www.aamc.org>
- **Graduate Management Admissions Council**
<http://www.gmac.com>
- **ETS – Graduate Record Exam**
<http://www.ets.org/gre/>
- **Law School Admissions Council**
<http://www.lsac.org>

There are a number of resources that can be found to help prepare for these exams. Information on Prep Courses and Student Guides can be found at the following websites.

- **Baruch Continuing and Professional Studies**

- **Kaplan Test Prep and Admissions**
<http://www.kaptest.com>
- **Peterson's Graduate School Planner**
<http://www.petersons.com>
- **Powerscore**
<http://www.powerscore.com>
- **TestMasters**
<http://www.testmasters.net>
- **The Princeton Review**
<http://www.princetonreview.com>

Computer-based tests are the most common method for test taking, however, if a test-taker prefers to take a paper-pencil based test, the option is sometimes available. Test scores take approximately 4 weeks to be reported to schools of choice, so be sure to take the test at least 1 month before all application deadlines.
